regenlab® usa

**Created through a patented process, our 4D HA formulations are made up of HA in four molecular weights: Large** molecular weight HA, **Medium** molecular weight HA, **Sodium Acetylated** Hyaluronate, and - **Small** molecular weight HA.

**Each weight is developed to penetrate skin at different depths** – the larger the molecule, the better the protection at the superficial skin layer; the smaller the molecule, the deeper the absorption. Sodium Acetylated Hyaluronate can help to promote high affinity and adsorption properties of HA for skin.

The Anti-Aging Collection is enriched with ANTI-WRINKLE COMPOUND PEPTIDES, SACCHAROMYCES LYSATE EXTRACT and CAFFEINE which were designed for anti-aging and glowing based on hydrating and skin cells activation. It also **prevents and corrects signs of aging, reduces the appearance of fine lines and wrinkles, combats loss of firmness and lack of plumpness, restores skin vitality and radiance.**

# RegenSkin™

**DEEP HYDRATING LOTION:  
100 G/3.53 OZ.**

Our Lotion is designed to keep the skin moist and reduce the signs of aging along with excessive dryness; skin will appear firm and tight. You skin will regain a youthful look after using the lotion every day.

## KEY BENEFITS

- Moisturizes skin
- Firms and tightens skin
- Protects with antioxidant
- Suitable for aging skin
- Suitable for daily use

# CellularMask®

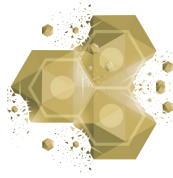

HYDRATING MASK : 30G\*5

It can deeply hydrate and sooth your face and neck skin with the help of a nourishing serum combined with a 3D microfiber mask. After only one application, face and neck skin looks fresher, more radiant and feels softer; long term use of the 3D mask will keep the skin moisturized, smoother, and suppler.

## KEY BENEFITS

- Full face and neck skin treatment
- Deep hydrating effect
- High concentration of active ingredients
- Suitable for all skin types
